

## Means Tested Benefits Calculator for Equity Release

- FreeBen is an easy-to-use Means Tested Benefits calculator designed specifically for use by equity release advisors and IFA's in Great Britain and Northern Ireland.
- FreeBen enables you to provide clients with up-to-date information on their eligibility for benefits – in a professional report format.
- FreeBen is the most cost-effective calculator of its type on the market, with a 30-day no-obligation free trial and a single annual subscription fee.

## 7 reasons to use FreeBen...

1. *Easy-to-use Means Tested Benefits calculator for all clients aged over 55 – whether they are working or retired, as long as they are resident in England, Scotland, Wales or Northern Ireland.*
2. *Includes FREE Retirement Date calculator to work out when your client becomes eligible for Pension Credit and/or the State Pension.*
3. *No training required – FreeBen uses an intuitive Fact Find, with on-screen tips and a detailed user guide. All you need is a basic familiarity with Windows and some understanding of the Means Tested Benefits rules.*
4. *No usage limits – you can produce as many benefits entitlement reports as you like.*
5. *Designed for use either online or offline – use at the office or in a client's home.*
6. *Automatic Updates – so FreeBen will always be updated with the latest benefits rates, allowances and thresholds.*
7. *Completely free technical support by email or phone, with extensive help available online.*

**...and all for less than £4.00 a month**
